# How to make your stay comfortable

## Relaxing wood heated Finnish sauna

Heating the sauna might be tricky if you are not accustomed to wood heated saunas. Thus it is recommended that host ignites the fire and you keep the flame as long you need the sauna. More firewood can be found around the corner (see map)

It takes around an hour to heat the sauna properly. Ping the host an hour before you want to go to sauna. Contact information is on the whiteboard.

## All year around heated outdoor jacuzzi for 6

Jacuzzi is heated all the time. There is no need to wait for it like with sauna. Just jump into the water, push buttons on the control panel and on the sides of the pool (explore) and enjoy bubbly 35+ celsius water.

You can use the jacuzzi and sauna between 12-21pm. Shower before entering sauna and jacuzzi. Use bathing suites in the jacuzzi.
